Technical: HTML5, CSS3, JavaScript, ReactJs, Bootstrap, GIT, Module Federation, Webpack, Jira, GitLab, Micro-Frontend, Redux, Material-UI, Tailwind CSS, TypeScript, API Integration, Performance Optimization

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | FERMION INFOTECH | VASHI, MAHARASHTRA | DECEMBER 2021 – PRESENT

Dedicated **Frontend Developer** with **3+ years** of expertise in developing **dynamic web applications** using modern JavaScript frameworks. Specialized in **React.js** ecosystem with hands-on experience in **Micro-Frontend** architecture, state management, and API integrations. Proven track record in building scalable **admin panels**, **e-commerce** platforms, and **fundraising** portals. Strong foundation in responsive design, **performance optimization**, and collaborative development using **agile methodologies**.

PROJECTS

DONORLINK (DONOR LINK) | FERMION INFOTECH | AUGUST 2024 – CURRENT

- Working as Frontend Developer on a comprehensive **fundraising platform** with administrative portal and public fundraiser website components.
- Built responsive interfaces using React 18.2.0, **TypeScript**, Material-UI, Radix UI, and **Tailwind CSS** with Zustand state management.
- Implemented advanced features: **drag-and-drop** (@dnd-kit), rich text editing (TiptapJS), data visualization (Recharts), and interactive maps (Leaflet).
- Integrated form handling (**React Hook Form + Zod**), PDF generation, and real-time communication (Twilio Voice SDK).
- Maintained code quality using Vite, **Vitest** testing, **ESLint**, Prettier, and **TypeScript**.

DGV (DIGGIVRIDDHI) | FERMION INFOTECH | JANUARY 2023 – JUNE 2024

- Created and **led DGV Portals website** development with **Module Federation** and **Micro-Frontend** architecture.
- Created page designs using Figma, translating concepts into visually appealing layouts.
- Managed **Money**, **Pay**, and **Connect** products on a **unified website**, ensuring seamless user experience.
- Implemented **API integrations**, state management with **Redux**, and enforced **data validation** using **usehook-form**, maintaining **code quality** with **SonarQube** analysis.

AZA (AZA FASHIONS) | FERMION INFOTECH | JULY 2022 – DECEMBER 2022

- Developed and maintained the **Aza Fashions admin panel** using **React.js**, Bootstrap, and **Redux** for efficient state management and **dynamic data handling**.
- Ensured code quality and reliability through **unit testing** while **optimizing** website **performance**.
- **Simplified** ecommerce website **management** with a **theme-based** React.js admin panel.

TNN (TIMES NOW NEWS) | FERMION INFOTECH | DECEMBER 2021 – JUNE 2022

- Contributed to the development of **the Times Now news** website, focusing on **AMP** pages, **SEO optimization**, and **ads** implementation.
- Implemented **API integrations** to enhance website functionality and **optimized performance** for better user experience.
- Developed and **maintained** the **logical** aspects of the website.

EDUCATION

Mulund College of Commerce | Mulund | AUGUST 2018 – MAY 2021

Bachelor of Science in Information Technology
